## PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and 3rd-year Computer Science student at Assiut University, specializing in Angular, PHP, and .NET Core. Demonstrated ability to deliver end-to-end web applications — from responsive, accessible frontends to secure RESTful APIs and relational/NoSQL databases. Trained across three industry programs (DEPI, NTI, ITI) and experienced in Agile team environments. Seeking a remote or Egypt-based role where I can contribute to scalable, user-centered digital products.

## PROFESSIONAL TRAINING & EXPERIENCE

### Full-Stack .NET Development Trainee

Nov 2025 – Present

Digital Egypt Pioneers Program (DEPI) — Remote

- Building scalable full-stack applications using ASP.NET Core Web API and MVC patterns
- Developing data-driven interfaces with HTML5, CSS3, JavaScript, and C# backend logic
- Applying software engineering best practices including unit testing and layered architecture

### Full-Stack Web Development Intern (PHP)

Aug 2025 – Sep 2025

Information Technology Institute (ITI) — Egypt

- Delivered dynamic web applications following MVC architecture in PHP and MySQL
- Applied clean code principles and RESTful API design in a structured training environment

### Full-Stack Web Development Intern (PHP)

Jul 2025 – Aug 2025

National Telecommunication Institute (NTI) — Egypt

- Engineered FatoraBee, an invoice management platform with authentication, client management, analytics dashboards, and chart-driven statistics using Angular, PHP, MySQL

## Frontend Development with Angular — Trainee

Oct 2024 – May 2025

Digital Egypt Pioneers Program (DEPI) — Remote

- Architected and launched STAR Shop, a full-featured e-commerce platform with product browsing, cart/favorites management, and JWT-secured authentication using Angular and Node.js
- Collaborated in Agile teams, delivering iterative feature releases and code reviews

## Winter Camp Monitor

Feb 2025 – Mar 2025

Assiut University — Egypt

- Mentored junior students in C++ and object-oriented programming fundamentals

## ICPC Newcomers Training Participant

Oct 2023 – Feb 2024

Assiut University Competitive Programming Club

- Strengthened algorithmic problem-solving skills in C++ through competitive programming challenges

## FEATURED PROJECTS

---

### FatoraBee — Invoice Management System

Aug 2025

Angular · PHP · MySQL · XAMPP

- Designed and deployed a full-stack invoicing platform with role-based authentication, client and invoice CRUD operations, and a real-time analytics dashboard with Chart.js visualizations
- Implemented secure login/registration flows and ensured responsive UI across devices
- [GitHub Repository](#)

### STAR Shop — E-Commerce Platform

May 2025

Angular · Node.js · MongoDB

- Built a production-grade electronics e-commerce storefront featuring product catalog, favorites/cart management, and a secure user authentication system
- Integrated RESTful APIs for dynamic data rendering and optimized frontend performance
- [GitHub Repository](#)

### AstroVerse — Interactive Space Learning App

Jul 2025

Angular · Laravel · PHP · MySQL · JavaScript

- Developed an immersive educational web application featuring a clickable 3D Solar System, interactive constellation builder, quiz engine, and a live space-news ticker via external API integration
- Implemented full-stack architecture with a Laravel backend and Angular SPA frontend

### SeeForMe — Accessibility Assistant Simulation

2025

HTML5 · CSS3 · Vanilla JS · Bootstrap 5 · Web Speech API

- Created a multi-module accessibility tool simulating assistive technology for visually impaired users, integrating Web Speech API, camera access, and six interactive features in a biopunk-inspired UI
- [GitHub Repository](#)

### University Management System — Desktop App

Mar 2024

C++ · OOP · Data Structures

- Built a university record management system handling student enrollment, course assignments, and grade tracking using custom data structures in C++

## EDUCATION

---

### B.Sc. in Computer Science

Faculty of Computers and Information, Assiut University — Egypt

GPA: 3.23 / 4.0 • 3rd Year

Expected Graduation: 2027
